THE HOOK

Write the spell. Survive what you wrote.

A card is not a fixed action - it is a sentence frame. Words placed into its blanks can alter the effect, target, condition, scale, timing, and price of the magic.

WRITE THE SPELL

Drag words into blanks during combat. The same card can become a room-wide burn, a delayed trap, or a dangerous burst of power.

PLAY TOGETHER

Solo play and up to four-player online co-op. Each player builds a separate spellbook and can extend an ally's setup.

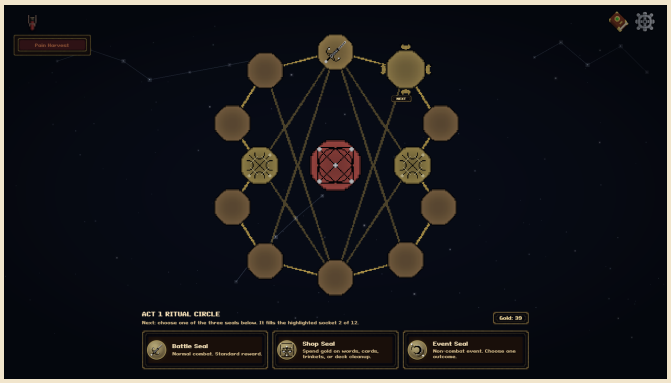

CHOOSE A SCHOOL

Four classes reshape the system through repetition, seals and frost, life-fueled power, or astral cycles.

BUILT FOR DIFFERENT RUNS

Branch through battle seals, elite fights, events, shops, upgrades, healing rooms, and bosses. Build around changing pools of spell cards, words, trinkets, subclasses, and consequences that can turn a drawback into the center of a run.
